Naples AVIATION

FUELED BY *Safety & Service*

With professional, efficient ground handling, a modern terminal and highly trained staff, Naples Aviation goes above and beyond to prioritize safety and deliver exceptional service. That includes keeping your operations running seamlessly with a dedicated five-person quality control team, full-time SMS manager, and well-maintained trucks ready when you need them. We're also the first airport on the East Coast to offer a regular supply of Sustainable Aviation Fuel (SAF).

We're the first-ever FBO to earn the ARGUS International Base Operations Audit Certification in the U.S. Our commitment to safety has also earned the IS-BAH Stage 2 certification.

NUCOR®
BUILDINGS GROUP

When you partner with Nucor Buildings Group for your next construction project, you're making the smart choice. That's because our custom engineered steel building systems designed, detailed, and fabricated in America offer unsurpassed flexibility, speed of construction and superior structural strength. Specializing in innovative, custom building solutions for every segment of the aviation industry, Nucor Buildings Group has manufactured millions of square

feet of aviation related facilities throughout the U.S. and Canada. Dollar for dollar and pound for pound, steel is the strongest, most cost-efficient construction material available. The fact that we manufacture our building systems using Nucor steel — a 100% recyclable, renewable resource produced in North America, with over 70% of its content made from post-recycled material — makes them one of the most environmentally friendly options, too.

POWERFUL PARTNERSHIPS. POWERFUL RESULTS.

■ Safespill

NATA PARTNER+

Keala Moncur
info@safespill.com

1900 Crosspoint Avenue
Houston, TX 77054

(713) 645-4370

safespill.com

Founded in 2013, Safespill designs and manufactures FM Approved, environmentally safe fire protection systems for military and commercial aircraft hangars handling ignitable liquids.

Our core product, the Ignitable Liquid Drainage Floor Assembly (ILDFA), is a floor-based alternative to foam suppression. It removes spilled fuel before ignition—eliminating pool fires and accidental discharges. ILDFA is the only system recognized in NFPA 409 (2022) for Group I and II hangars. It is FM Approved under Standard 6090 and is the preferred fire protection method in FM Data Sheet 7-93. The system is also compliant with Unified Facilities Criteria (UFC).

■ Vector Airport Systems

Pete Coleton
petec@vector-us.com

280 Sunset Park Drive
Herndon, VA 20170

vector-us.com

Vector is a Virginia-based company that provides aircraft identification and automated landing fee billing and collection systems. The company was formed in order to respond to a RFP for an automated identification, and landing fee billing and collection system at Massport's Hanscom Field. Vector won that contract and has continued to expand on the capabilities first developed for that project, including the integration of multiple aircraft and flight track data sources in order to create the most complete operations database possible. To date, we have installed our systems at more than 80 airports across the US and overseas - both commercial and general aviation - giving Vector the wide base of experience to confidently succeed at complex projects.

AIRTERASM SAFETY MANAGEMENT SYSTEM (SMS)

Smarter Safety. Audit-Ready. Fully Mobile.

AirTeraSM Is Your SMS Partner

Built for aviation safety leaders, AirTeraSM eliminates administrative headaches with AI-powered automation, real-time insights, and a mobile-first design. When operators partner with AirTeraSM, teams can focus on what's really important and proactively foster a safety-focused culture, not paperwork or administrative tasks.

What You'll Get

- AI-powered automation for reporting, controls, audits, and risk tracking
- Mobile-friendly with anonymous risk reporting
- Emergency Response Planning (ERP) to launch and manage plans from anywhere
- Seamless team collaboration with task ownership, mentions, and notifications
- Time-stamped bulletins to share updates, documents, and safety insights
- Real-time, data-driven FRAT for objective risk assessment
- Always audit-ready and FAA Part 5 compliant by 2027
